FOREST FIRE WARDEN'S REPORT

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a co-operating public.

Yet, despite all this, there still persists a disturbing note:

58 per cent, or six out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10 per cent, or one out of every nine fires was caused by children.

Careless, indifferent, thoughtless and independent-minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires, three; number of acres burned, 20½; number of permits issued, 12.
